**CRYSTAL FLASH**  
Lighting Manufacturer

## COMPANY PROFILE:

Crystal Flash Co. LLC is a manufacturer, developer, and distributor of goods within the lighting industry. The company is known for providing a top-quality level product with high and strict QC checks and standard requirements which have proven to be exemplary regarding the quality of their production firms. Crystal Flash Co. maintains an emphasis on growth, development, and advancement of themselves as a company, and in the industry in which they operate. Crystal Flash Co. is proud of the fact that it has access to an advanced laboratory and a well-equipped and proficient R&D team, which allows them to produce products under IEC 60598, IEC 60968, and IEC988 standards, as well as products that are fit to be exported to Europe, being approved by CE quality standards. The company operates internationally with advanced teams all over the world to present the best quality with the strictest standards to the clients, all of the teams operating with Crystal flash co have to achieve an IEC17025 certificate from the National Advisory Committee of Immunization (NACI). Also, the ISO4001:2012 certificate for modern management techniques in consumer satisfaction as well as ISO9001:2015 standard.

The factory has numerous divisions such as:

- Research and Development division in Canada (R&D)
- Multiple Production lines in Iran
- Quality Control, and Quality Assurance divisions
- Information and Communications Technology
- Marketing
- Domestic sales
- International sales and exports
- Human resources

Crystal Flash has been published in numerous regional, leading, scientific, and research publications, for presenting research developments and scientific achievements, in branding and industrial development fields. The company also issues journals dedicating in spreading the green energy culture and introducing the technologies and appliances to promote this facility. Being Environmentally friendly products has been also extremely important to the company and as result, a standard certificate of ISO14001 :2012 was also achieved.

#### Company Vision:

Crystal Flash Co. is aiming to become a market leader in the lighting industry for the region. In order to attain this goal, Crystal Flash will utilize valuable human capitals, attracts investment in order to attain the most advanced production facilities, sales team, distribution channels, after sales services, and generate the highest value for the stakeholders.

The way to reach that vision is to pave the way in customer indulgence and trying to meet and fulfil all aspects of the market. Entering and developing new features such as high efficiency lamps, smart products and renewable energies.

#### Fields of Specialization:

- Industrial and Solar Lights.
- LED Bulbs, (A Bulbs, Colourful Bulbs, Dimmable Bulbs, Bulbs with Sensors, High Powers)
- Candle Lights, Spot Lights, Downlights, LED Panel Lights, Strip Lights, Track Lights.
- LED Flood Lights, Street Lights.
- LED Tubes, (water proofs, integrated tubes, replacement tubes, colourful tubes)
- Miniature Circuit breakers (MCBs), Residual Current Circuit Breaker (RCCB)
- Providing laboratory services in the field of lighting equipment (In association with National Standardization Authority and National Qualification Authority)

## CRYSTAL FLASH DIVISIONS:

### ▪ **Research and development unit:**

Crystal Flash Co has been certified and approved to hold a Research and Development license, in an attempt to continue their efforts in advancing the lighting industry. The Laboratory is well equipped with the most up-to-date technologies and advanced machineries, presenting them the freedom and capability to conduct all classes of experiments in variety of products, in terms of quality, efficiency, durability, and improvement of designs.

The department also acts as quality control and assurance unit, by using process control methods and supervising the assembly line, and analyzing the results making sure products move out of the production line with no flaws. There is software like Mini Tab and SPSS used in order to make those observation and minimize the probability of any imperfections or flaws in the product that the consumer purchases.

### ▪ **Production unit:**

Experienced work forces and advanced assembly line with sensitive supervision and 24 hours monitoring and quality control are used to ensure the product quality in terms of both actual product and the packaging.

### ▪ **Warehousing and distribution centers:**

In order to speed up the production, delivery, and sales, some high-tech softwares are used to monitor and forecast the raw materials in the inventory, the raw materials needed, goods that are produced and ready to move out, and to keep track of the distribution channels until the goods are reached to the customers.

- **Marketing unit:**

The marketing team aims to embrace the customers, to identify potential buyers, and to develop new marketing segments constantly to ensure all proficient segments are covered and all new segments are wellresearched. Various researches are being conducted on a consistent basis, to help realize the needs of the customer, and their behavior habits, as well as the market competitors and SWOT analysis, on daily basis.

- **Sales unit:**

Crystal Flash benefits from a professional and experienced sales team to ensure that all consumer needs and potential consumer needs are well met. It is essential for the company's wellbeing that customers are satisfied in terms of quality, value for money, all the knowledge needed in purchasing the right product for their specific needs and so on.

- **After sales services:**

The obligation of a manufacturer will not be complete upon selling a product; a key to consumer satisfaction is to follow up on a product all the way to the end of its life cycle and ensure that the customer is satisfied with their purchase until the end of the product's life cycle. Crystal Flash's after sales services unit is fully dedicated to follow up the consumers satisfaction and to help minimize any insufficiencies or inconveniences by providing spare parts, replacing the defects or damaged parts, help and consult with installation, and other all possible means to meet the consumer needs.

### Fulfillments:

- Being a member of the National Oil and Gas organization's vendor list as a trusted supplier.
- Reliable associate of the standard organization, Certified Standard Testing Laboratory, IEC17025
- Highly reputable quality management and customer satisfaction edifices.
- Environmental management system
- Export badge of Europe CE

### Objectives:

- Maximizing energy saving, improving lifespan to increase the consumer economy prospective and also providing longer product warranty
- Stability of light quality overtime, maximizing light efficiency
- Comply with Up To Date world standards
- Continuing to improve product designs, to capitalize on elegance, user friendly products with ease of installation. Increasing the quality of components and parts constantly.
- Unconditional after sales services, high inventory of spare parts and replacement products to build a quicker customer service.

## Features

Compact and rugged structure, easy for installation.

Six kinds of power boxes available for different requirements.

Various diffusers available: flat, convex and globe; PC and glass material optional.

All exposed fasteners with quality stainless steel.

Shock and vibration resistance with IK08/IK10 certified and 5G vibration test.

Aluminum housing, great corrosion resistance and cooling performance.

## Installation Methods and Accessories

### No.1: Ceiling Mounting

### No.2: Wall Mounting

### No.3: Pole Bracket Mounting

### No.4: Pendant Mounting

### No.5: Chain Mounting

## Features

- Suitable for Zone 1&2 (Gas), Zone 21&22 (Dust)
- High luminous efficacy - Up to 120-140 lumens per watt
- 0-10V dimming
- Waterproof and dust-proof, without internal cleaning and maintenance
- Simple structure for easy and quick installation
- Stainless steel fasteners, ADC12 aluminum housing, good corrosion resistance
- Tempered glass, high light transmittance and impact resistance

## Structure Feature

This chamber is an increased safety "e" chamber, and an increased safety "e" terminal is used.

The cover is opened by thread, which is more convenient than fastening with screws, takes less time, and does not need additional technical support.

1. The explosion-proof type type of wiring chamber can be "Ex e" explosion-proof type. See Figure.
2. The opening mode of the wiring chamber cover is threaded connection, which is convenient for incoming wire and wiring.
3. The structure can save additional incoming junction box for users.
4. Method of construction: Housing in one piece with high mechanical and chemical resistance. Long-lasting imperviousness by screw fitting.

## Schematic Diagrams

## Ordering Guide

## Features

- Emergency back-up battery available. Emergency time: 1.5 hours/3 hours.
- Smart control: built-in motion sensor.
- Power adjustable.
- CCT tunable: 3000K/4000K/5000K or 4000K/5000K/6000K.
- High lumen efficiency (three options): 130lm/W, 170lm/W, 190lm/W.
- Energy saving up to 80-85%.
- Equipped with reflector (optional accessories).
- Compatible with Zhaga Socket (optional).

## Application

Warehouse, airports, exhibition centers, shopping centers, supermarkets, stadiums, toll stations, subways, etc.

## Dimensions

## Mounting

## Features

GB/RGBW optional

External power supply and built-in power supply are optional  
DALI, DMX512, RDM wireless control, 0-10V dimming

Cold forging 1050 aluminum housing with polyester powder coated finish, excellent heat dissipation and corrosion resistance

Laser aiming device (optional) provides precise control in angling and aiming to exact optimal position

Special circuit design for each module part to work separately

High-quality optical material and various light distribution angles deliver ideal illumination and visual comfort

Built-in power supply

External power supply

## Dimension mm[inch]

## Packing Information

Model	Quantity/Carton	Packing Size	N.W (kg/lb)	G.W (kg/lb)
ES01	2	580x590x210mm/22.83x23.23x8.27inch	3.5kg/7.72lbs	8.3kg/18.3lbs

## Mounting Methods

No.1: Wall Mounting

Open the cover by turning the regular hexagon spanner counterclockwise. Then connect the wire. Fix the fixture to the wall.

No.2: Ceiling Mounting

Fix the fixture to the ceiling through the 2 mounting holes on the fixture.

No.3: Pendant Mounting

First, connect the two pendant strings with the fixture. Then fix it on the ceiling.

**ES02A1: Luminaire**  
**ES02A2: Emergency Light**

Small Housing for ES02A1/ES02A2

Big Housing for ES02A1/ES02A2

## Features

- Low working wattage for energy saving.
- Multiple wattage options.
- ES02A2: 3-hour emergency operation.
- Power outage and shutdown function available at emergency mode.
- 1-10V dimming.
- Equipped with a lithium battery pack: 9.6V, 4000mA.
- Hinged-access door.
- Can be used outdoors.
- Mounting method: wall mounting.
- Provided with 3/4" NPT or M25 conduit hubs.

ATEX Marking	II 2 G Ex db IIB+H <sub>2</sub> T6 Gb II 2 D Ex tb IIIC T80°C Db
IECEX Marking	Ex db IIB+H <sub>2</sub> T6 Gb Ex tb IIIC T80°C Db
Rated Wattage	6W to 12W (2x3~6W). Remark: 3W~ 6W for each spot light
Lumens	540-1080lm
Input Voltage	AC100-277V by driver and by IC
Housing Material	Die-casting Aluminum
Emergency Time	Up to 3 Hours
Operating Temperature	-20°C to + 60°C
IP Rating	IP66

### Packing Information

Model	Quantity/Carton	Packing Size	N.W (kg/lb)	G.W (kg/lb)
ES02B1	1 pc	660x510x260mm/ 25.98x20.08x10.24inch	18.0kg/39.68lb	21.0kg/46.30lb

### Dimensions: mm[inch]

### Mounting Method: Wall Mounting

1. Drill 4 holes (Φ0.35inch) as shown above.

2. Install four M8 expanded screws to fix the device.

3. Tighten the four screws.

4. Connect the AC cable, black cable joins to L, white cable joins to N, green cable joins to grounding.

## ES02B2: Exit Sign

Remark: More exit sign contents refers to the below information.

## Features

- Low working wattage for energy saving.
- Hinged-access door.
- Can be used outdoors.
- Long lifespan up to 50,000 hours.
- Provided with 3/4" NPT or M25 conduit hubs.
- Label content can be customized (various languages and exit signs are available).

## Technical Data

3. Tighten the four screws.
4. Connect the AC cable, black cable joins to L, white cable joins to N, green cable joins to grounding.

## ES02B3: Exit Sign with Emergency Backup Battery

### Features

- Low working wattage for energy saving.
- Hinged-access door.
- Can be used outdoors.
- Long lifespan up to 50,000 hours.
- Provided with 3/4" NPT or M25 conduit hubs.
- 3-hour emergency operation.
- Label content can be customized (various languages and exit signs available).

IECEX Marking	Ex db IIB+H <sub>2</sub> T6 Gb Ex tb IIIC T80°C Db
Rated Wattage	3W to 6W
Input Voltage	AC100-277V by driver and by IC, or DC12-48V
Housing Material	Die-casting Aluminum
Emergency Time	Up to 3 Hours
Operating Temperature	-20°C to + 60°C
IP Rating	IP66

### Packing Information

Model	Quantity/Carton	Packing Size	N.W (kg/lb)	G.W (kg/lb)
ES02B3	1 pc	460x270x260mm/ 18.11x10.63x10.24inch	11.0kg/24.25lb	13.0kg/28.66lb

### Marking Label (Optional)

### Mounting Method: Wall Mounting

1. Drill 4 holes (Ø0.35inch) as shown above.

2. Install four M8 expanded screws to fix the device.

3. Tighten the four screws.

4. Connect the AC cable, black cable joins to L, white cable joins to N, green cable joins to grounding.

### Dimensions: mm[inch]

## ES02B4: Exit Sign and Emergency Light

### Features

- Two high-lumen spot lights can be adjusted in horizontal and vertical directions.
- Edge-lit sign.
- Low working wattage for energy saving.
- Hinged-access door.
- Can be used outdoors.
- Long lifespan up to 50,000 hours.
- Provided with 3/4" NPT or M25 conduit hubs.
- Label content can be customized (various languages and exit signs available).

## ES02C1: Emergency Light

## Features

Two high-lumen spot lights can be adjusted in horizontal and vertical directions.

Edge-lit sign.

Low working wattage for energy saving.

Hinged-access door.

Can be used outdoors.

Long lifespan up to 50,000 hours.

Provided with 3/4" NPT or M25 conduit hubs.

Label content can be customized (various languages and exit signs are available).

IECEX Marking	Ex db IIB+H <sub>2</sub> T6 Gb Ex tb IIIC T80°C Db
Rated Wattage	6W to 12W (2x3~6W). Remark: 3W~ 6W for each spot light
Lumens	540-1080lm
Input Voltage	AC100-277V by driver and by IC
Housing Material	Die-casting Aluminum
Emergency Time	Up to 3 Hours
Operating Temperature	-20°C to + 60°C
IP Rating	IP66

## Packing Information

Model	Quantity/Carton	Packing Size	N.W (kg/lb)	G.W (kg/lb)
ES02C1	1 pc	440x434x286mm/ 17.32x17.08x11.26inch	9.0kg/19.84lb	11.0kg/24.25lb

## Dimensions: mm[inch]

## Mounting Method: Wall Mounting

1. Drill 2× holes as fig. 1, the distance as per above dimensions.

2. Fix 4× M8 expansion screws.

3. Install pipe to 3/4 NPT entry and fix 19mm Chico A.

4. Connect the AC cable, black cable joins to L, white cable joins to N, green cable joins to grounding.

## ES02C3: Explosion Proof Emergency Backup Box

Small Housing

Big Housing

### Features

- Hinged-access door.
- Can be used outdoors.
- Provided with 3/4" NPT or M25 conduit hubs.
- Small and big housing available.

### Technical Data

ATEX Marking	II 2 G Ex db IIB+H <sub>2</sub> T6 Gb II 2 D Ex tb IIIC T80°C Db
IECEX Marking	Ex db IIB+H <sub>2</sub> T6 Gb Ex tb IIIC T80°C Db
Universal Input Voltage	100-277Vac, 50/60Hz
AC Input Current	100mA max.
AC Input Power Rating	7W max.
Output Current and Voltage	410-800mA, 25-48Vdc
Output Power	20W
Emergency Time	1.5H (standard) or 3H (optional)
Full Warranty	3 years
Test Switch Indicator Light	Illuminated Test Switch, Red, Green, Yellow indicator Light
Battery	LiFeP04 battery - 12.8V/3000mAh or 6000mAh
Battery Charging Current	250mA
Charging Time	≥ 24 hours
Ambient Temperature	0°C to +50°C (32°F to +122°F)

### Dimensions: mm[inch]
